Based on actual lies: any resemblance
between any characters in this comic with
real living people is a miracle.

HATERS BE HATERS.
TO ALL YOUSE HATERS OUT
THERE, WE LOVE YA!

★ NEW DRIVER! ★ KARMA IST DA

WHEN YOUR DRIVER AT DAWN SOUNDS LESS LIKE TRANSPORT
AND MORE LIKE COSMIC ACCOUNTING.

1. THE PICK-UP

It's 5:37 AM. The city is half asleep. You open the app. Your driver's name appears.

Well. That's not a name. That's a plot twist.

2. THE IMMEDIATE PROBLEM

Do you get in the car... or start apologising to people you forgot to say sorry to?

Should I tip now? Kneel? Volunteer? Break up with my ego?

PRE-RIDE CHECKLIST

- ☐ Assume guilt
- ☐ Clear heart
- ☐ Phone charged
- ☐ Excuses ready
- ☐ Snack offering
- ☐ Low drama
- ☐ Extra humility

3. THE GERMAN MOMENT

The name lands. It lands hard.

Short. Direct. Deeply concerning.

4. THE COSMIC READING

Maybe this isn't a ride. Maybe it's an audit.

POSSIBILITY A: RIDE HOME

You get where you're going. Try to be slightly better on the way.

Either way, seatbelt's on.

POSSIBILITY B: FINAL AUDIT

Reckoning. Receipts. Karmic bookkeeping. No snacks.

PAST BEHAVIOUR LEDGER

5. THE HOPE

You're not asking for much. Just one small miracle. One gentle bumper of justice.

I was hoping Karma would run over a DOGMA.

DOGMA

6. THE RESULT

The car rolls gently past. DOGMA remains unscathed. No dramatic irony. Just traffic.

But no luck.

7. THE LESSON

The universe has a sense of humour. But it's not a sitcom.

Can't win 'em all.

THINGS YOU CAN CONTROL

- ☒ Your effort
- ☒ Your attitude
- ☒ Your apology range
- ☒ Your snack choice
- ☒ Your playlist
- ☒ How you treat people

THINGS YOU CAN'T CONTROL

- ☒ Whether DOGMA gets fender-bent

8. THE BOTTOM LINE

When your driver is called Karma, every trip feels like a moral reckoning. Enjoy the ride. Own your stuff. Try not to be weird about it.

You get out wiser. Or at least better hydrated.

RIDES MAY VARY

- Traffic
- Truth
- Turnarounds
- Teachable Moments

BONUS REMINDERS!

TIPPING ≠ IGNORING

Gratitude is good. Accountability is better.

MUSIC MATTERS

Pick songs that won't get your past version sued.

GOOD CONFESSION

Short, honest, specific. No TED Talk.

KARMA IS NOT AN APP

It doesn't surge. It just shows up when it wants.

BE NICE ANYWAY

You never know who's keeping score. (Hint: Everyone.)

★ MORE KARMA. MORE DOGMA. MORE TURTLE. ★

IF THE DRIVER NAME FEELS JUDGMENTAL, CHECK WHETHER THE UNIVERSE IS JUST DOING PICK-UPS.

★ NEW KARMA! ★ EMOTIONAL SUPPORT CAT

WHEN YOU LAUGH AT YOUR BROTHER'S NON-RECLINING SEAT
AND THE UNIVERSE SEATS YOU NEXT TO A FLYING FELINE.

1. THE MOCKERY

Turtleman is informed of his brother's tragic seat crisis. He responds like a true idiot.

My seat wouldn't recline.

Tragic. A modern warrior defeated by upholstery.

2. THE ELF REMEMBERS

The night before the flight, a karmic elf updates the ledger. The universe has a sense of humour and a long memory.

Noted.

KARMA LEDGER
TODAY'S ENTRY:
LAUGHED AT BROTHER'S SEAT WOES
LESSON ASSIGNED:
EMOTIONAL SUPPORT CAT
NEXT TO HIM - LONG HAUL

3. THE REVEAL

Boarding begins. Turtleman does not have to wonder long about his karma.

Really?

EMOTIONAL SUPPORT CAT

4. THE REALISATION

A cold wave of panic hits Turtleman. To escape this seat, he must make a complete cunt of himself. The flight is full. There is nowhere to hide. Social disaster is immediate.

KARMIC FACTS:
• FULL FLIGHT
• NO ESCAPES
• ALL EYES
• ZERO CHILL
• INSTANT EMBARRASSMENT

KARMA IS FAST. ECONOMY IS TIGHT.

5. THE SHUFFLE

It turns out no one wants to sit next to a cat, allergies or not.

I don't mind moving. As long as it's NOT the cat.

I'll take the middle. Anywhere but there.

Can we swap? My sinuses are fragile.

FULL FLIGHT WITH CONSENT
Every passenger move is voluntary and polite.

6. THE VOLUNTEER

An old bird steps up. No theatrics. No virtue signalling. Just old-school decency.

A hero emerges.

I'll do it.

7. THE DAMAGE

The poor girl really needs that emotional support now.

I'm not sure her cat gives a flying fuck.

NOT MY PROBLEM.
NOT MY EMOTIONS.
NOT MY FLIGHT.

8. THE BOTTOM LINE

Laugh at another person's tiny travel misfortune and the universe will upgrade your lesson immediately.

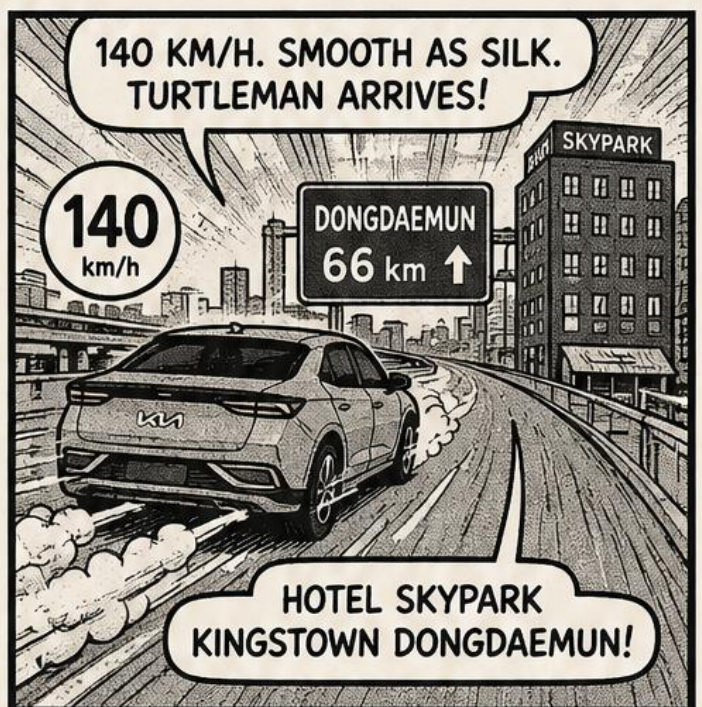

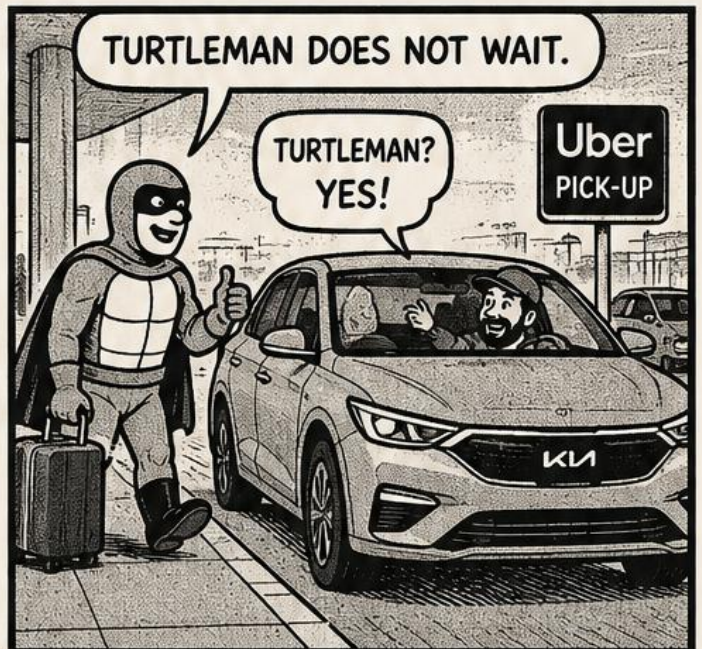

Karma doesn't explain itself. It just assigns seating.

KARMA BALANCE SHEET	
OFFENCE	LESSON DELIVERED
LAUGHED AT BROTHER'S NON-RECLINING SEAT	SEATED NEXT TO EMOTIONAL SUPPORT CAT
MINIMISED A TRIVIAL INCONVENIENCE	MAXIMUM PERSONAL INCONVENIENCE
IGNORED SMALL HUMAN MISERY	FULL FLIGHT, NOWHERE TO HIDE
ARROGANT SUPERIORITY	PUBLIC EMBARRASSMENT UPGRADED TO PREMIUM
ZERO EMPATHY	POLITE SEAT SHUFFLE COURTESY OF OTHERS

LEDGER STATUS: BALANCED. NEXT LESSON: LOADING...

MORE KARMA. MORE CATS. MORE TURTLE.

IF YOU MOCK ANOTHER MAN'S SEAT PROBLEM, DO NOT ACT SURPRISED
WHEN THE UNIVERSE BOOKS YOU NEXT TO THE CAT.

AFTER THE FLIGHT, TURTLEMAN NEEDS A BEER.

JUST A BEER TO UNWIND.

A BACK LANE NEAR THE HOTEL.

AH. PERFECT.

HE MEETS TWO LADS.

TURKEY.

LIBYA.

DRINKS. SMOKES. TALKS BULLSHIT.

FOOTBALL, POLITICS, ALIENS, PRICES, WOMEN, LIFE... ALL IMPORTANT STUFF.

EVENTUALLY, TURTLEMAN APOLOGISES.

I'M SORRY ABOUT THE SOCCEROOS BEATING TURKEY.

NO WORRIES, BROTHER.

A GOOD NIGHT. GOOD PEOPLE.

THANKS, LADS! GREAT NIGHT!

COME BACK ANYTIME, TURTLEMAN!

SAME PLANET. DIFFERENT SHIRTS.

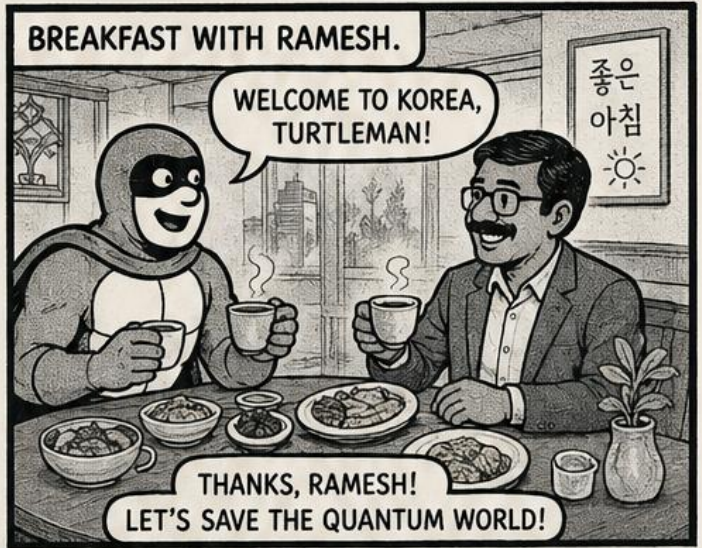

DAY 1. UP EARLY.

A NEW DAY! ANOTHER ADVENTURE
IN KOREA!

BREAKFAST WITH RAMESH.

THANKS, RAMESH!
LET'S SAVE THE QUANTUM WORLD!

AUSTRALIAN QUANTUM COMPUTING
MISSION TO KOREA.

LOTS OF IMPORTANT PEOPLE.
LOTS OF IMPORTANT CHATTING.

THE OBLIGATORY TALKS.

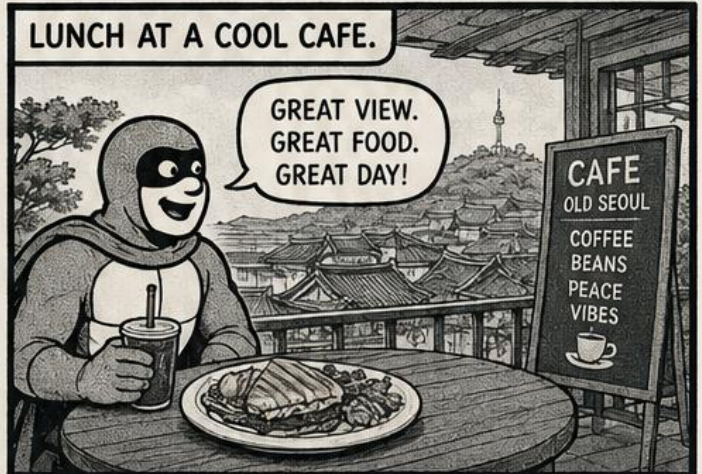

VERY INTERESTING SLIDES.

TODAY IN SEOUL:

MY THOUGHTS:

MEANWHILE...

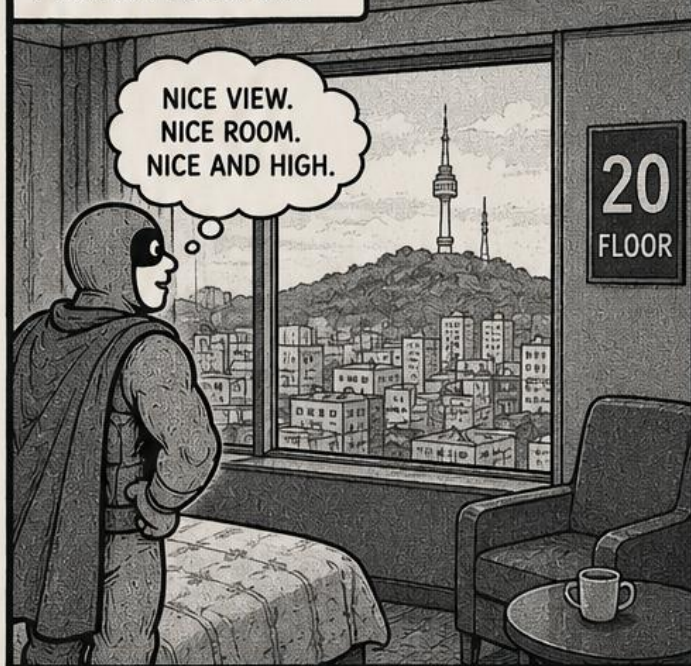

SAVE IT FOR REAL DISASTERS.

THIS HOTEL IS THE PREFERRED
SAFE HOTEL IN SEOUL FOR
KOREAN MIDDLE AGED WOMEN.

I'M ON FLOOR 20.

LOBBY EVERY MORNING.

BREAKFAST ROOM.

THEY LOVE TO SHOP.

WHAT I'VE LEARNED IS THAT
THEY DON'T MIND A SHOP.

SO I FOUND THE ENORMOUS
"FLEA" MARKET IN SEOUL.

ACTUALLY IT'S SECOND HAND
SHIT FOR POOR PEOPLE,

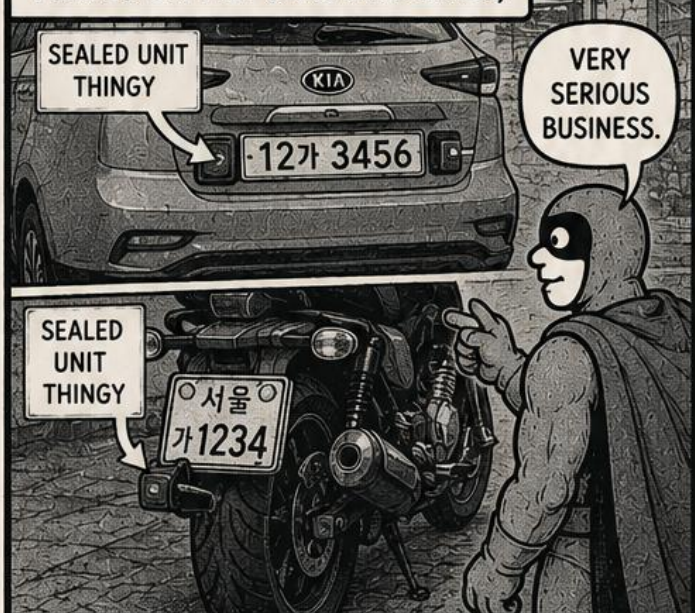

NOT A SINGLE OLD LICENSE PLATE
IN THE WHOLE PLACE.

CAN'T BUY ONE FOR LOVE NOR MONEY.
THEY TAKE THESE THINGS VERY SERIOUSLY.

THEY HAVE DOUBLE SECURITY ON THEIR
PLATES ON THE CARS AND BIKES,

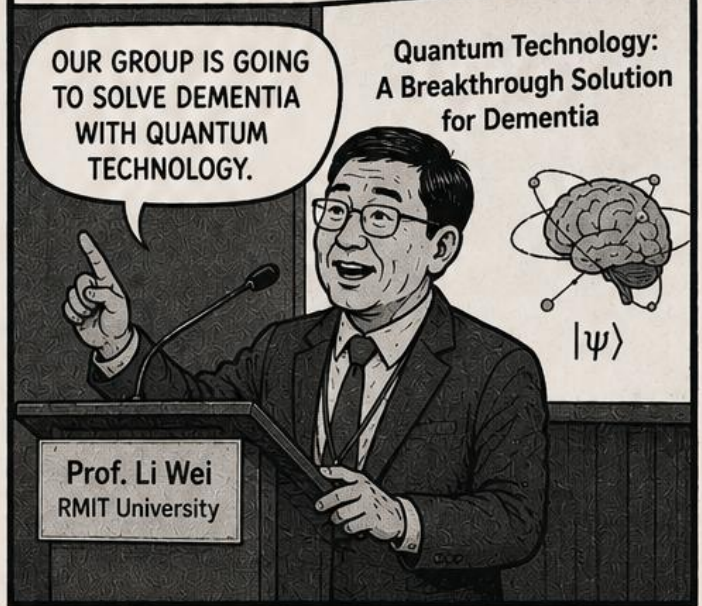

THEY THOUGHT I WAS MAD FOR
ASKING FOR A USED PLATE.

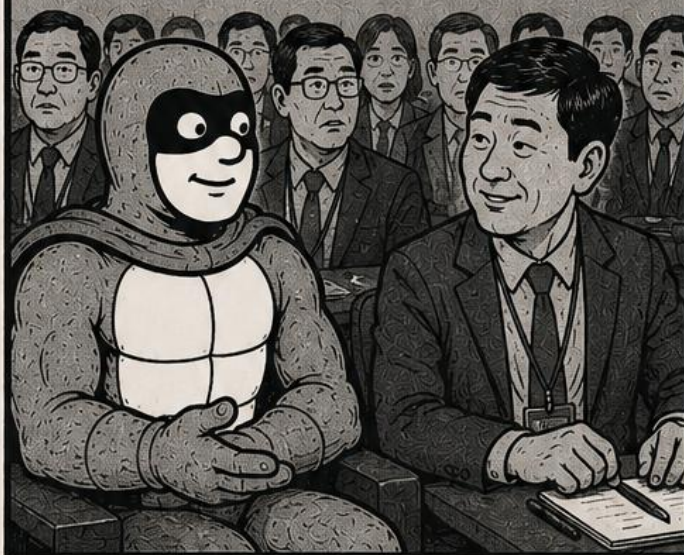

AT THE AUSTRALIAN-KOREAN
QUANTUM R&D COOPERATION EVENT...

A CHINESE RMIT ACADEMIC
TAKES THE STAGE.

MURMURS. RAISED EYEBROWS.

THE KOREAN GUY NEXT TO TURTLEMAN
OFFERS HIM A MINT.

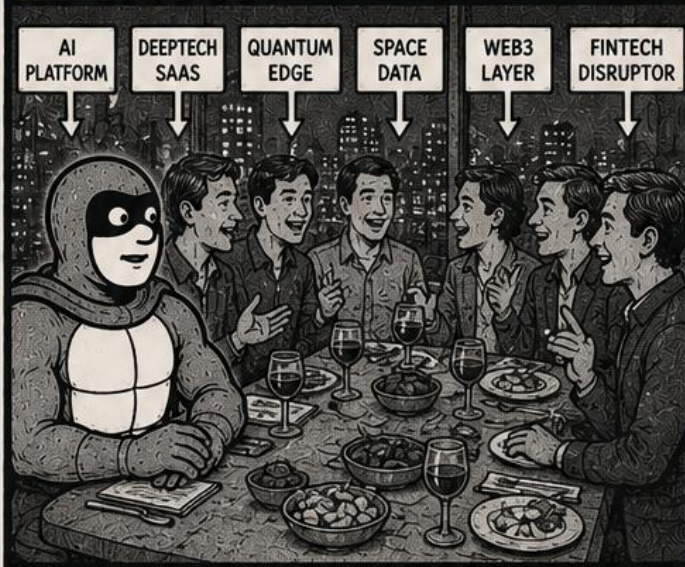

HE PICKS IT UP WITH HIS FINGERS
AND HANDS IT TO TURTLEMAN.

TURTLEMAN EATS IT ANYWAY.

TURTLEMAN IS GUEST TO DINNER WITH 6 YOUNG AUSTRALIAN TECH STARTUP CEOS.

THEY MUMBLE BOTTLED BULLSHIT.

TURTLEMAN TRIES HIS BEST NOT TO SAY ANYTHING AT ALL.

EVENTUALLY IT FINISHES.

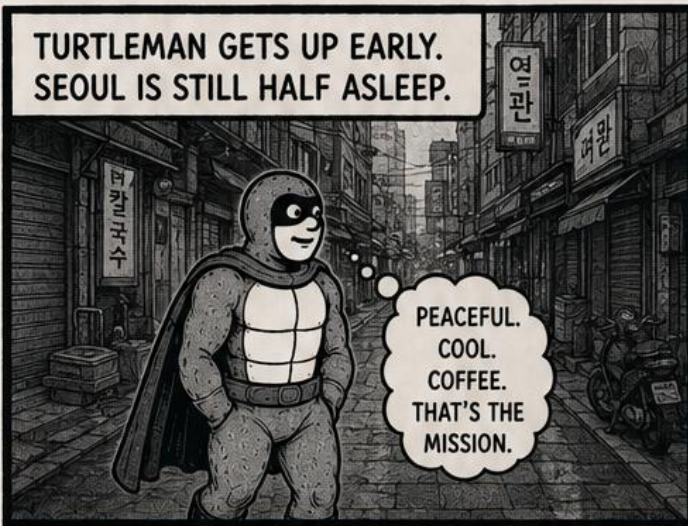

HE WALKS HOME.

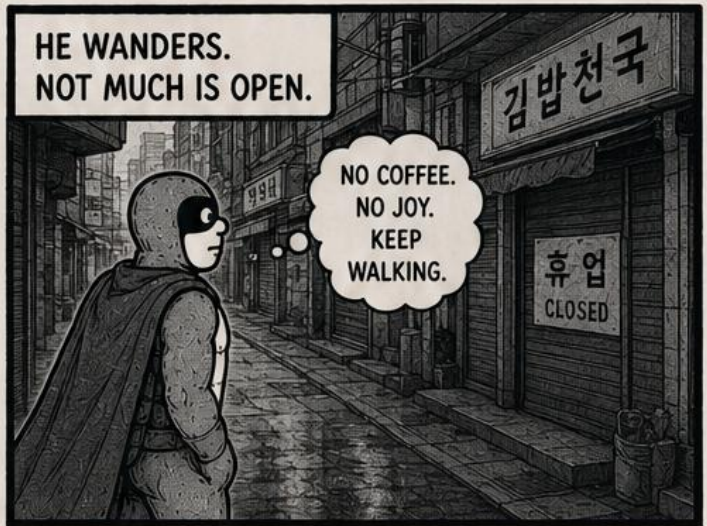

AND HAS A QUIET, RELAXING BEER BY HIMSELF PONDERING HOW MUCH BETTER THIS IS THAN DINNER.

TURTLEMAN GETS UP EARLY.
SEOUL IS STILL HALF ASLEEP.

HE WANDERS.
NOT MUCH IS OPEN.

FINALLY, HE FINDS A STARBUCKS.

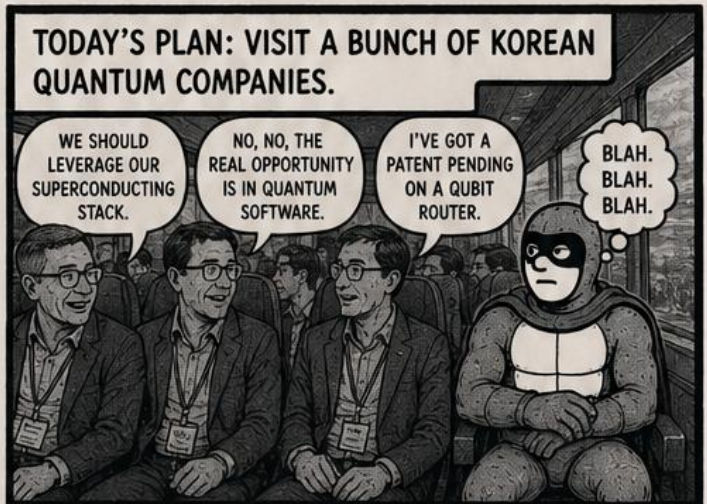

NEXT STOP: THE AUSTRALIAN EMBASSY.

A BUS. A BUNCH OF AUSTRALIAN
NERD CEOS. LET THE FUN BEGIN.

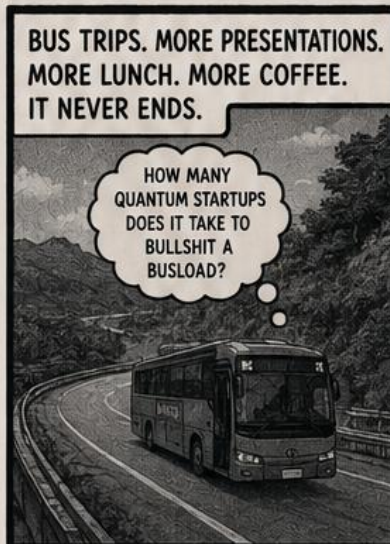

TODAY'S PLAN: VISIT A BUNCH OF KOREAN

HOW DOES SOMEONE

42 REVISITED

I'VE SPENT THE LAST WEEK TRYING TO DECIDE WHETHER QUANTUM COMPUTING DESERVES ANY MORE OF MY TIME.

THE QUANTUM INDUSTRY HAS BECOME REMARKABLY GOOD AT TELLING US THE SUPPOSED ANSWERS.

- ✓ SHOR. RSA. ALREADY SOLVED WITH PQC.
- ✓ GROVERS. NOT A SOLUTION AT ALL.
- ✓ CHEMISTRY. AS A PHD IN THEORETICAL CHEMISTRY, I CALL BULLSHIT. THESE PEOPLE DON'T EVEN KNOW THE DIFFERENCE BETWEEN CHEMISTRY AND MATERIAL SCIENCE.
- ✓ OPTIMISATION.
- ✓ MACHINE LEARNING.
- ✓ CLIMATE
- ✓ DRUG DISCOVERY.
- ✓ FUSION.
- ✓ AI.
- ✓ MAKING BETTER COFFEE.
- ✓ CORRUGATED ROOFING.
- ✓ SOLVING HUMAN GREED AND FEAR

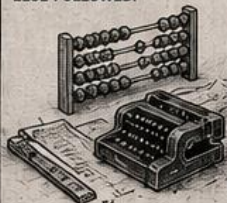

RATIONALLY, IT'S ALL BULLSHIT.

SO, WHAT IS A FAULT-TOLERANT QUANTUM COMPUTER ACTUALLY FOR?

THAT'S A SURPRISINGLY DIFFICULT QUESTION TO ANSWER.

WITH DIGITAL COMPUTERS THE ANSWER WAS OBVIOUS.

ARITHMETIC. LOGIC. EVERYTHING ELSE FOLLOWED.

PLUS THE COMPETITION WAS PEN AND PAPER, SLIDE RULES AND THE ODD MECHANICAL ADDING MACHINE.

WITH QUANTUM COMPUTERS WE HAVE TO COMPETE WITH EVER IMPROVING DIGITAL COMPUTERS AND WE HAVE DIFFERENT PRIMITIVE OPERATIONS.

- WAVE BEHAVIOUR
- SUPERPOSITION
- ENTANGLEMENT
- INTERFERENCE
- MEASUREMENT

SOMEWHERE IN THOSE PRIMITIVES LIES QUANTUM COMPUTING'S NATIVE APPLICATION.

IF SOMEONE HANDED ME A MACHINE THAT COULD PERFORM THOSE PRIMITIVE OPERATIONS PERFECTLY AT SCALE, WHAT INFORMATION-PROCESSING PROBLEM WOULD I NATURALLY MAP ONTO IT?

NOT "WHICH EXISTING ALGORITHM RUNS FASTER?"

I MEAN A GENUINELY NATIVE APPLICATION THAT CAN'T BE DONE ANY OTHER WAY.

OR, KNOWING THAT ALL OF MANKIND'S DIGITAL COMPUTING AND MEMORY CAPACITY COULD ONLY EMULATE CA. 50 ERROR FREE FULLY ENTANGLED LOGICAL QUBITS, WHICH APPLICATION NEEDS MORE THAN 50 QUBITS?

SUCCESSFUL TECHNOLOGIES USUALLY DON'T SPEND DECADES LOOKING FOR A PROBLEM TO SOLVE.

THE TRANSISTOR DIDN'T.

THE LASER DIDN'T.

THE INTERNET DIDN'T.

EVEN THE SOLAR CELL DIDN'T - IT HAD NASA TO SAVE IT.

SO MAYBE TRY A DIFFERENT APPROACH.

FORGET APPLICATIONS. START WITH THE PRIMITIVE OPERATIONS.

ASK WHAT KIND OF INFORMATION NATURALLY HAS THE SAME STRUCTURE.

IF NOTHING MAPS CLEANLY PERHAPS WE'RE ASKING THE WRONG QUESTION.

AT THIS POINT I REALISED I HAD ACCIDENTALLY RECREATED DEEP THOUGHT FROM THE HITCHHIKER'S GUIDE TO THE GALAXY.

THE QUANTUM INDUSTRY APPEARS TO BE TRYING TO BUILD A NEW DEEP THOUGHT. IT IS SPENDING BILLIONS OF DOLLARS PRODUCING THE ANSWER.

UNFORTUNATELY, NOBODY SEEMS ENTIRELY SURE WHAT THE QUESTION IS.

PERHAPS, IN TRUE DOUGLAS ADAMS STYLE, THE FIRST COMMERCIALY USEFUL QUANTUM COMPUTER + WILL SPEND TWENTY YEARS CALCULATING THE ONLY THING ANYBODY REALLY WANTS TO KNOW: +

"WHAT EXACTLY ARE WE SUPPOSED TO USE QUANTUM COMPUTERS FOR?"

STILL DON'T KNOW THE QUESTION.

POSSIBLE ANSWERS? WHO KNOWS.

FASTER? (BORING)	NATIVE APPLICATION?	ENTANGLEMENT
CHEMISTRY? (BULLSHIT)	> 50 QUBITS?	INTERFERENCE
AI? (MORE BULLSHIT)	CAN'T DECOMPOSE	MEASUREMENT
COFFEE? (SERIOUS?)	DEEP THOUGHT 2.0 LOADING... + 42 YEARS REMAINING...	

THE ULTIMATE COMPUTING QUESTION FOR THE ULTIMATE COMPUTER?

DON'T PANIC.

UNTIL THEN, WE BUILD, THEY PROMISE, WE WAIT, AND THE ANSWER REMAINS... 42.

THE UNIVERSE IS BIG. THE QUESTION IS BIGGER.

42

THE ONLY APPLICATION THAT MAKES SENSE.

THE CANDIDATE APPLICATION MUST SATISFY ALL OF THESE!

- ✓ IT NATURALLY MAPS TO QUANTUM PRIMITIVES.
- ✓ IT REQUIRES MORE THAN ABOUT 50 FULLY ENTANGLED LOGICAL QUBITS.
- ✓ IT CANNOT BE DECOMPOSED INTO SMALLER SUBPROBLEMS.
- ✓ IT CANNOT BE APPROXIMATED WELL ENOUGH BY TRADITIONAL MODELLING.
- ✓ THE VALUE OF AN EXACT SOLUTION JUSTIFIES THE COST OF THE QUANTUM HARDWARE.

THE ONLY APPLICATION I CAN THINK OF WHICH MEETS THESE CRITERIA IS SIMULATING STRONGLY CORRELATED MATERIALS SCIENCE-LIKE MATTER - PERIODIC MATERIALS WHERE THERE IS LONG RANGE ENTANGLEMENT WHICH IMPACTS THE INTERESTING MATERIAL PROPERTY.

EXAMPLES OF STRONGLY CORRELATED MATERIALS

HIGH-T_c SUPERCONDUCTORS

CuO₂ PLANES

MAGIC-ANGLE TWISTED BILAYER GRAPHENE

~1.1°

HEAVY-FERMION COMPOUNDS

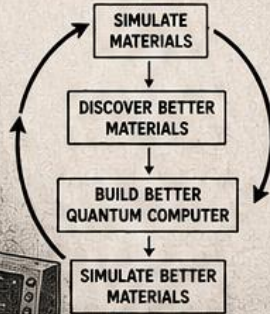

f ELECTRONS

THAT IS, THE SORT OF MATERIALS THAT ONE WOULD USE TO MAKE A QUANTUM COMPUTER.

BACK TO USING THE MACHINE TO DESIGN THE MACHINE!

I'M TELLING YOU, WE ARE IN A LOOP. IT IS THE ULTIMATE HARDWARE TAUTOLOGY.

WE ARE BURNING BILLIONS OF DOLLARS TRYING TO BUILD A MACHINE CAPABLE OF NAVIGATING THE EXACT PHYSICS REQUIRED TO BUILD A BETTER VERSION OF ITSELF.

WHERE ART THOU, USEFUL SIDE HUSTLE?

MEANWHILE... THE INVOICE KEEPS GROWING.

\$ BILLIONS AND COUNTING

HOWEVER, IT OCCURS TO ME THAT A FUNCTIONING ION TRAP QUANTUM COMPUTER IS A NEW CLASS OF MATERIAL.

A PERIODIC SYSTEM WITH THE INCLUSION OF A CONTROL AND MEASUREMENT LAYER.

ION TRAP MATERIAL STACK

THAT IS, A PROGRAMMABLE MATERIAL AT THE ATOMIC LIMIT.

IF WE CAN MANIPULATE THE INTERESTING PROPERTIES LIKE PHASE...

MOTT INSULATOR (LOCKED)

SUPERCONDUCTOR (UNLOCKED)

CONTROL FIELD

...THAT COULD BE THE THING THAT STICKS.

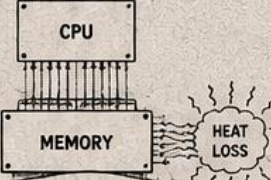

GET TO IT THEN!

AT GIGAHERTZ SPEEDS, A PHASE SWITCHING MATERIAL COULD TRANSFORM A MATERIAL INTO A UNIVERSAL PLATFORM FOR DIGITAL LOGIC.

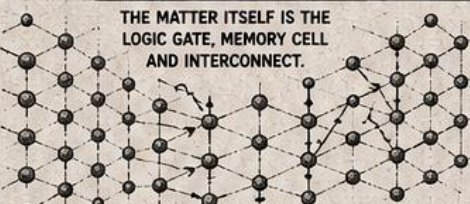

TRADITIONAL VON NEUMANN ARCHITECTURE (WASTEFUL)

MASSIVE ENERGY WASTED SHUTTLING ELECTRONS ACROSS COPPER BUSES.

BOOLEAN MATERIAL ARCHITECTURE (ELEGANT)

THE MATTER ITSELF IS THE LOGIC GATE, MEMORY CELL AND INTERCONNECT.

ZERO CHARGE TRANSFER. ZERO ENERGY WASTE.

BOOLEAN PHASE STATES

TOGGLE INSTANTLY ON COMMAND BETWEEN TWO PHASES:

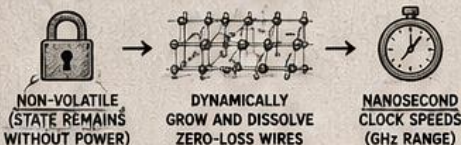

0 = MOTT INSULATOR (LOCKED, HIGH RESISTANCE)

1 = SUPERCONDUCTOR (UNLOCKED, ZERO RESISTANCE)

THE LOGICAL STATE IS HARDBAKED INTO THE PHYSICAL PHASE CONFIGURATION OF THE LATTICE.

NON-VOLATILE (STATE REMAINS WITHOUT POWER)

DYNAMICALLY GROW AND DISSOLVE ZERO-LOSS WIRES

NANOSECOND CLOCK SPEEDS (GHz RANGE)

THIS COULD COMPLETELY COLLAPSE THE DISTINCTION BETWEEN PROCESSING AND STORAGE.

A CONTINUOUS, PROGRAMMABLE BODY OF ENGINEERED MATTER THAT COULD COMPUTE NATIVELY WITH ZERO CHARGE TRANSFER AND ZERO ENERGY WASTE.

NOW THAT'S A QUANTUM APPLICATION WORTH CHASING.

STOP LOOKING FOR SIDE HUSTLES. BUILD THE MATERIAL FUTURE.

SOMETIMES I THINK MARKETERS DON'T SPEAK ANY LANGUAGE
THAT EXISTS IN ANY UNIVERSE. PARALLEL OR OTHERWISE.

**LESS ROUTINE. MORE READING.
LESS ADMIN. MORE MATHS.
LESS NONSENSE. MORE KNOWLEDGE.**

**BRING BACK
THE BASICS!**

*NO GUARANTEE OF ACADEMIC OUTCOMES. MAY PRODUCE CONFIDENT, CONFUSED ADULTS.

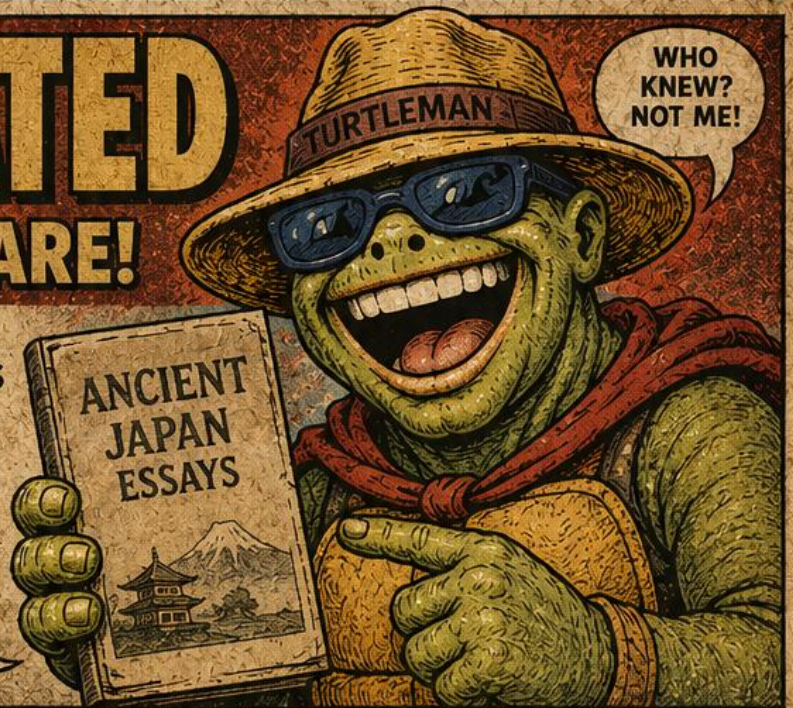

HISTORY REVEALED! MINDS BLOWN!

AGRI-GATED INVENTED WARFARE!

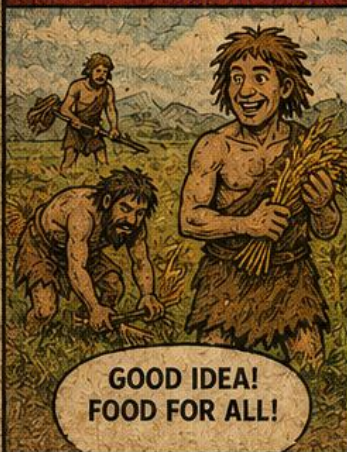

"THE INTRODUCTION OF AGRICULTURE
CREATED LAND OWNERSHIP AND SURPLUS
WEALTH - THE TWO PRIMARY CATALYSTS
FOR HUMAN WARFARE."

- ANCIENT JAPAN ESSAY

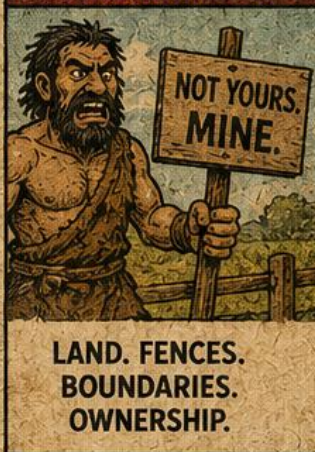

AND THERE I WAS THINKING
IT WAS **STUPIDITY, CUNTINESS,
OIL AND GREED!**

1. FIRST, PEOPLE
START FARMING...

2. THEN COMES
"THIS IS MINE."

3. THEN COMES
SURPLUS WEALTH.

4. THEN COMES
WARFARE!

SO LET'S GET THIS STRAIGHT!

MAYBE THE REAL PROBLEM ISN'T RESOURCES.
MAYBE IT'S US!

- ✓ WE TAKE.
- ✓ WE HOARD.
- ✓ WE CLAIM.
- ✓ WE FIGHT.
- ✓ WE REPEAT.

**SAME OLD
STORY FOR
10,000 YEARS!**

*DOESN'T APPLY TO ALL HUMANS. ONLY MOST OF THEM. MAY CONTAIN TRUTH.

SCIENCE? I HAVE SCIENCE!

NO SHARKS. NO SHARK ATTACKS.

"MOST SCIENTISTS HAVE SAID
KILLING SHARKS DOES NOT
REDUCE ATTACKS."

**MOST SCIENTISTS DON'T EVEN
HAVE AN OPINION ON THE SUBJECT.**

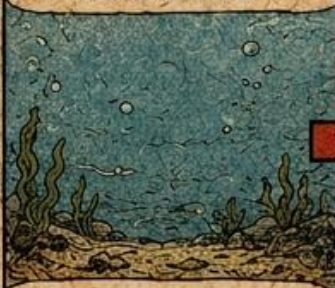

**HOWEVER I DO.
AND I'M RIGHT.**

I SAY THAT IF
THERE WERE **NO**
SHARKS THEN WE
WOULDN'T HAVE
SHARK ATTACKS.

REFUTE
THAT,
TREE
HUGGERS!

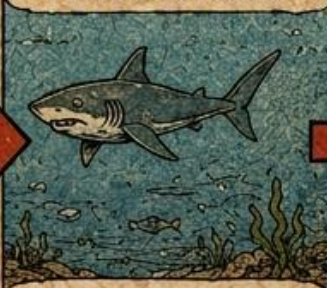

STARTING WITH THAT IRREFUTABLE LIMITING CASE...

1. NO SHARKS.
NO SHARKS.

THERE ARE **ZERO**
SHARK ATTACKS.

2. FEW SHARKS.
FEWER ATTACKS.

FEWER SHARKS MEANS
FEWER ATTACKS.

3. MANY SHARKS.
MORE ATTACKS.

MORE SHARKS MEANS
MORE ATTACKS.

4. LOTS OF SHARKS.
LOTS OF ATTACKS.

LOTS OF SHARKS MEANS
LOTS OF ATTACKS.

THE LOGICAL CONCLUSION?

LESS SHARKS
MEANS
LESS ATTACKS.

WHAT THE "EXPERTS" SAY...

HMM...

NOT
SURE...

IT'S
COMPLICATED...

MAYBE.

WHAT TURTLEMAN SAYS...

KEEP IT SIMPLE.
USE YOUR BRAIN.
LESS SHARKS =
LESS ATTACKS.

KILL SHARKS. SWIM SAFER.

- ✓ FEWER SHARKS IN THE WATER
MEANS FEWER ATTACKS.
- ✓ PROTECT OUR OCEANS BY
REMOVING THE RISK.
- ✓ LOGIC. SCIENCE. COMMON SENSE.

LESS SHARKS.
LESS ATTACKS.
IT'S NOT ROCKET
SURGERY!
